

Guangzhou Xinghe Aluminum Composite Panel CO.,LTD

Electronic Catalogue
July 20,2009

Brief introduction-1

XingHe Aluminum Composite Panel Co.,Ltd. was established in 2001 is situated in the Make industrial park in Yuwotou,Panyu District of Guangzhou city, which is superior in location and convenient in transport. The area of the manufacturing site is more than 20,000 sqms. It is an enterprise specialized in manufacturing series of aluminum and plastics boards. With its great financial strength, the company purchased from Germany an advanced test devices. We use high-quality materials from the U.S. and Sweden and adopt advanced aluminum and plastic board and sophisticated supporting production technology from Japan to manufacture high and intermediate class aluminum and plastic boards for interior and exterior finishes. The company has great financial strength, advanced equipments and a team of experienced professional managers and engineering technical personnel. The production capacity is ranked at the top of the industrial.

Our products successively passed the random inspection of the building material research center of the state and aluminum and plastic board product quality supervision and test center and were confirmed to be the industrial standard. They are recommended by the Ministry of the Construction as excellent products and examined and appraised by the Bureau of Building Materials Industry of China as a "green building material products". Thanks to the earnest and sincere creditability, perfect quality and after-sale service of the company, the products have been in active demand in every part of the country since they are introduced into the market and were chosen by a number of priority projects and large buildings.

Brief introduction-2

At the same time, the company applies, in a view to modernize our marketing networks, the scientific marketing theories in building the marketing networks in Europe and Southeast Asia region. We warmly welcome and look forward to the cooperation with dealers and customers. We will provide you with qualified products and cordial services. Guangzhou Xinghe Aluminum Composite Panel Co., Ltd conforms to GB/T17748-1999 China National Standard, passed ISO 9001:2000, confirmed as the most recommended enterprises the environmental Friendly Products by China Building Materials Industry Association and China Building Material Industry Standardized Research Institute. The famous brand name Xinghe, Nan Yang, Kingaluco etc are not only popular in domestic market, but also overseas market, such as West Europe, Middle-East, South-East Asia as well as South America. Xinghe Aluminum Composite Panel Co., Ltd don't want to boost ourselves as the biggest factory, but we are the most professional one with good quality control, friendly services as well as competitive prices. So for your esteemed company, if you are convenient, warmly welcome you to our factory. Or you can order small quantity to check the quality etc. What's more, OEM services are also welcome, we can fully help you to win your market, so that finally to achieve win-win.

Production Equipment

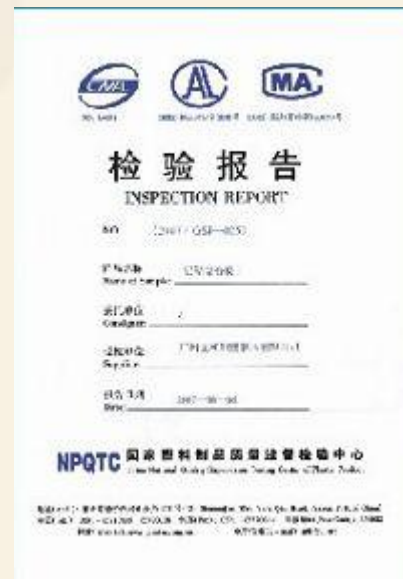

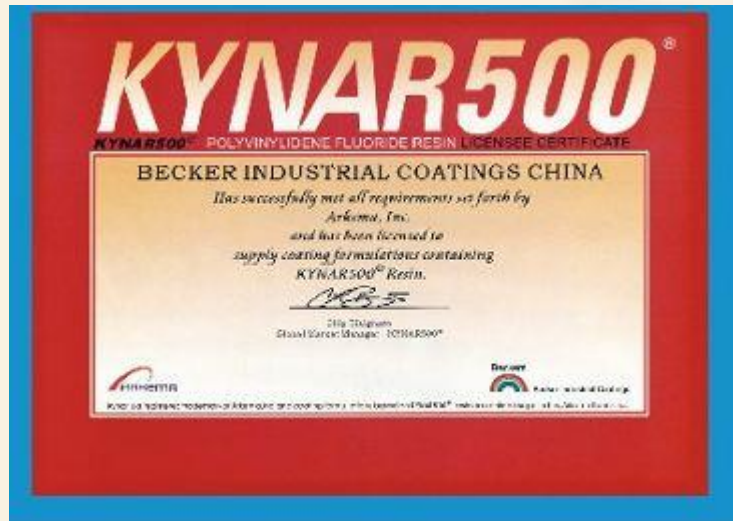

Products “zero defect” is the tenacity and the pursuit of Xinghe. No matter the much of the finance, Xinghe has introduced a number of international advanced production equipment, as well as first-rate decorative materials management for production. The workshop set fully automated production lines together with high-precision testing equipment, strictly and precisely controlling every production process, which is a strong guarantee for Xinghe’s high-quality products. The full implementation of industrial automation as well as the integration of the production and management reflect the production efficiency and the superiority of technical products of Xinghe. Creating the belief of international brand and being combined with the international advanced equipment become the solid ladder for Xinghe to step into the perfect ideal for the quality.

Enterprise Resource

Every honor and every identity depend on the hard working of our Xinghe's staff. Xinghe implement strictly the quality assurance system, so that each production's quality has been approved by customers. At present, Xinghe has passed ISO9001:2001 international quality system certification; its products were praised by National Association for Engineering Construction as a "green building material products" and successively passed the random inspection of the building material research center of the state and aluminum-plastic board product quality supervision and test center and were confirmed to be the industrial standard. They are recommended by the Ministry of the Construction as excellent products.

Scope of Application

Building curtain wall decoration, old and new buildings' interior wall decoration; billboards, show boards, advertisement decoration, display units; shop decoration, ceiling decoration, bathroom cabinets, furniture decoration; industrial material, car body, machine exterior, tunnel wall, etc.

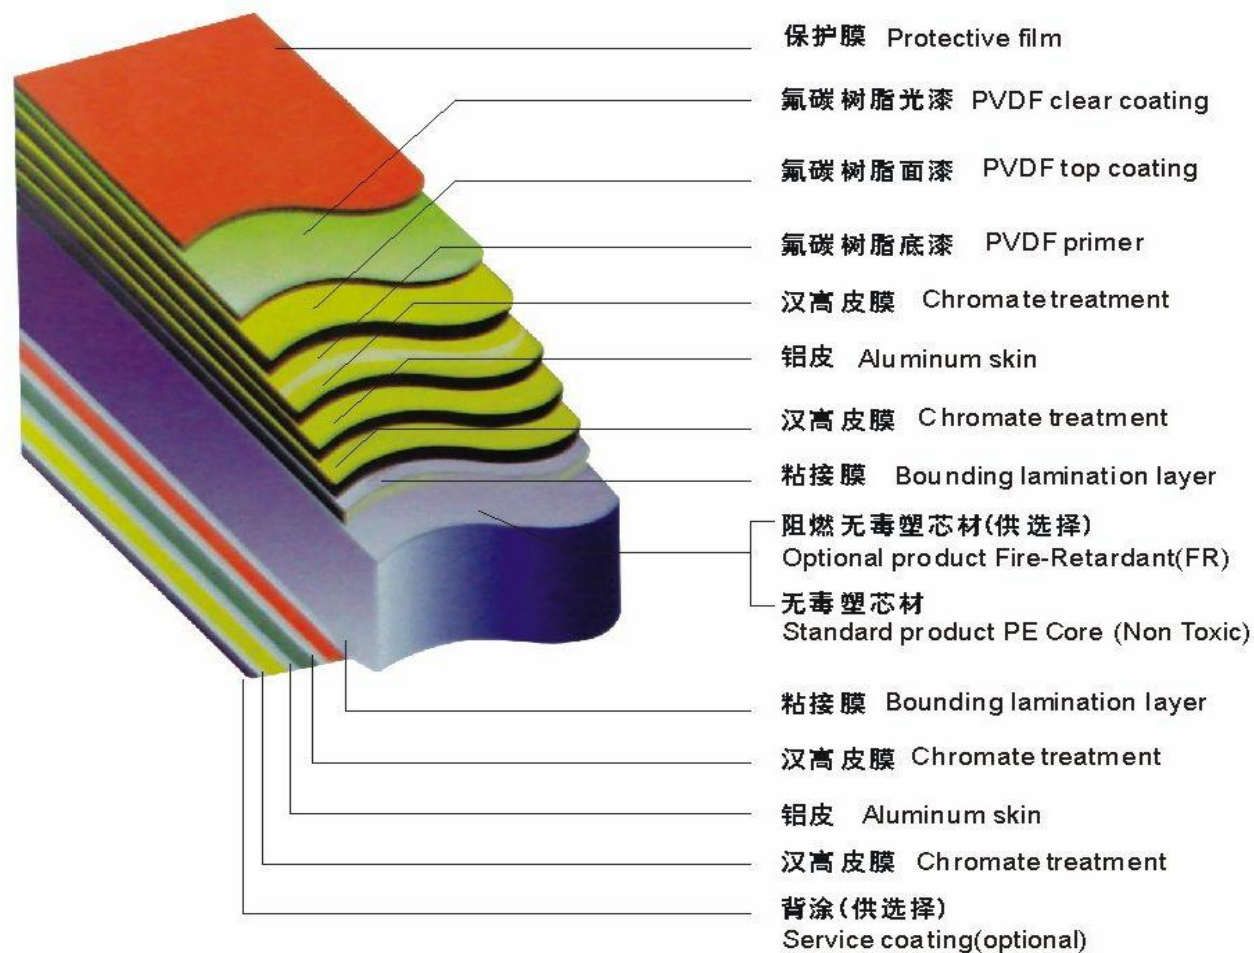

Product material instruction

- ✓ USA PPG fluorocarbon coating, Sweden Berger fluorocarbon coating
- ✓ USA Dupont macromolecule sticking film or Japanese MISUBISHI macromolecule sticking film
- ✓ German original aluminum mirror, drawbench roll plate
- ✓ 3003,5005 high quality aluminum alloy plate

Product material instruction

Products-1

- v Name: Aluminum Composite Panel
- v Coating: PE (Polyethylene) or PVDF
- v Surface Film: Aluminum Sheet
- v Core: Plastic material or
Fire-Retardant material
- v Specifications:
 - Thickness: 3mm, 4mm, 5mm, 6mm
(3mm and 4mm are most popular).
 - Length: 2,440mm (Max. length: unlimited)
 - Width: 1,220mm (Max. width: 1570mm)
- v Colors: silver, flash silver, gold, flash gold,
white, red, black etc. (as requirements)

Products-2

- ✓ Name: Mirror Aluminum Composite Panel
- ✓ Surface Film: Mirror Aluminum Sheet
- ✓ Core: Plastic material or
Fire-Retardant material
- ✓ Specifications:
Thickness: 3mm, 4mm, 5mm, 6mm
(3mm and 4mm are most popular).
Length: 2,440mm (Max. length: unlimited)
Width: 1,220mm (Max. width: 1570mm)
- ✓ Colors: Golden-mirror, silver-mirror

Products-3

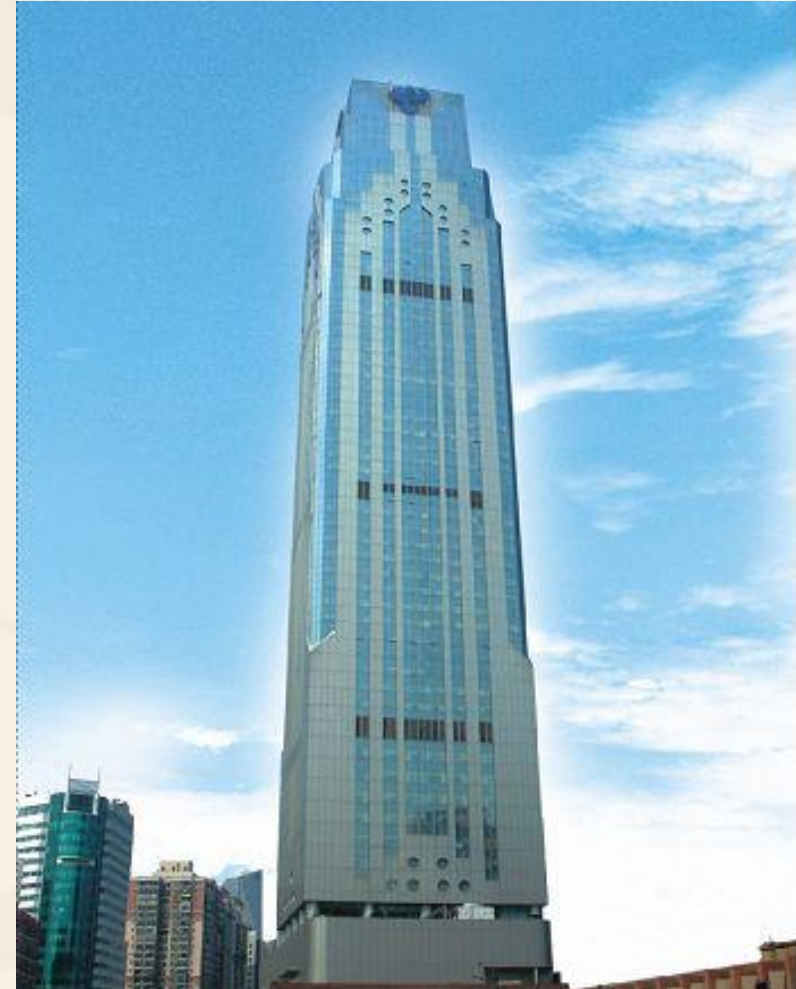

- ✓ Name: Granite Aluminum Composite Panel
- ✓ Surface Film: PET heat laminated color film
- ✓ Second layer: Aluminum Sheet
- ✓ Core: Plastic material or
Fire-Retardant material
- ✓ Specifications:
Thickness: 3mm, 4mm, 5mm, 6mm
(3mm and 4mm are most popular).
Length: 2,440mm (Max. length: unlimited)
Width: 1,220mm (Max. width: 1570mm)
- ✓ Colors: cherry, red beech, teak, walnut, golden-flower cream, India red (light), India red, black-gold grain, violet pink, grizzled green
